Coding Challenges Details: (Attach the snapshot and briefly write the report for the same)

Given an array of positive integers. Write a C Program to find the leaders in the array.

```
void printLeaders(int arr[], int size)
{
    for (int i = 0; i < size; i++)
    {
        int j;
        for (j = i+1; j < size; j++)
        {
            if (arr[i] <= arr[j])
                break;
        }
        if (j == size) // the loop didn't break
            printf(" %d ", arr[i] );
    }
}

int main()
{
    int arr[100], i=0, n=0;
    printf("enter the number of elements");
    scanf("%d", &n);
    printf("enter the array");
    for(i=0; i<n; i++)
    {
        scanf("%d", &arr[i]);
    }
    printLeaders(arr, n);
    return 0;
}
```
